## FILLY CHEESE STEAK

### The Horserace Mystery Event

Filly Cheese Steak is the name of a horse that is a top thoroughbred and the favorite to win the Upson Downs this weekend. The only problem is that Filly is no where to be found. It seems as if somebody has kidnapped her so she doesn't run that race.

She is owned by one of the top racing families and horse breeders in the United States, but something is un-stable about some of them. You might say it's a "Horse Divided Against Itself."

There are several other players in the field now jockeying for position to take home the big prize. There are plenty of twists and turns and a few long shots, but who knows it might just end in a DEAD HEAT.

The track is still open for business and you get to bet on several of the races. In this murder mystery we set up a 30 foot straightaway and we run races right in your banquet room. With your "Funny Money" winnings you can purchase clues to help you decide "Whodunit!" Sometimes we use our jockeys, and sometimes we have your guests saddle-up, but whoever wins or loses, there's certainly plenty of horsin' around at this fun evening of entertainment. Odds are everyone will have great time.
