MOB-NOPOLY

Your guests are invited to a friendly neighborhood mob meeting and are members of crime families from the North, South, East and West sides of town. Salvatore Balboa, the head of all the crime families was cut down in cold blood at Pluckey Enyuckies I-Talian Restaurant the night before and there's a meeting to decide which side of town will take over as head crime family and to also solve Sal's murder.

There are many suspects including his power hungry wife, his sleazy nephew, his dimwitted son, his oversexed mistress, his arch rival and his arch rival's very attractive step-mother. They all could have had a hand in his death. Each one of these characters heads up a team and your guests are human pawns on the game board playing for their team to be the new leaders of all the neighborhoods.

The playing space is a 12 foot by 12 foot vinyl game board that the suspects actually stand on. Each team can land on various spaces such as chance, pay-off, pay-back, draw, act-out, trivia, define and whacked, or they can pass GO or land in JAIL.
