SWAPPING SPACES

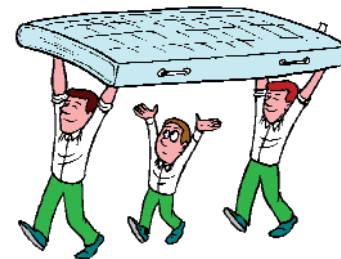

Based on the hit TV series *Trading Spaces*, this murder mystery focuses on the evil that men and women do when rearranging someone else's furniture. Sure, everyone is entitled to their own opinion

and sense of style, but should bad placement of a sofa or poor choice of a color scheme result in murder?

There are a number of audience parts in this show. Participating audience members can be pre-selected by the host or randomly selected by the actors during the reception (Mix and Mingle). Guests are assembled into teams by table and will work together to solve the crime.

Additionally the guests will be creating some unique presentations promoting the outdoors lifestyle. After ballots are completed, the winning teams(s) are announced and awarded
